Unfortunately I am not receiving daily communication from teachers, all the time, I understand that it because it's the teachers is doing training.. But I do receive some during the week..

Thank you 😊

As a parent I am very happy with the support my child receives at school. At the moment I would not consider any other education facility for my son. The school is rather modern as well as the approach towards teaching. I am impressed with the flexibility towards my childs needs. Never thought that a school can be such a good place for my special #####

##### has had quite a stressful year, being placed at this school has brought life back into my sons face. I would personally like to thank all the staff at the Boston Endeavour for the warm, kind and compassionate welcome both myself and my son were given. Fabulous school with Fabulous teachers, extremely proud of my sons achievement.

Thank you so much for your support :)

I cannot thank staff enough for their quick action at the start if the month when ##### started to have an out of the blue seizure just as he was about to leave school. Also want to thank Rhiannon for accompanying me to the hospital and staying with me for a bit. It was a very emotional and unknown time and she was amazing. I thank the school as a whole for their support when he started back too.

School have been amazing with helping my son access school in a way that reduces his anxieties and increases the likelihood of having a good day. ##### loves coming to school, it's the one place he actively wants to be at. His 1:1 is fantastic with him as are the other adults in his class. ##### feels comfortable walking round the school and talking to everyone. ##### is happy here and we can't ask for more than that.

Amazing school well recommended keeps me updated support myself and the children including traumatic experiences recently with my eldest child. X2

Communication can be infrequent at times.

Very happy with the school at the moment in time we would not consider anything else.

Feel disappointed there seems to be a shortage of experienced staff, also swimming and rebound therapy are very limited this school year , well rebound was last year as well.

I have recommended and will carry on doing so.

Highly recommend this school, its been a game changer for my son, he is now thriving at school, increasing in maths and English skills. ##### enjoys coming to school

My child has come on leaps and bounds since joining BEA and is doing amazingly. I would definitely recommend to other parents.
